

Part II: Create the Infographic

1. Organize your data and sketch out a plan for your infographic.
2. In your infographic - use text, symbols, illustrations, pictures, maps, diagrams, graphs, charts, and other graphic visuals to relay the results of the information you have gathered
 - you may use any infographic program of your choice - some popular ones are ease.ly, piktochart, and vennage.
3. Post a hyperlink on your blog
 - also include the embed code if that is an option in the program you chose for creating the infographic
