

# Photowork Assignment: Leading Lines

---

## Leading Lines

1. The goal for this assignment is to learn how to direct the viewer to your subject using lines. Choose a subject then look around for lines in the scene that you can use to 'lead' the viewer to the subject. Remember that lines can be man-made or natural. Take care that the lines are not taking the viewer away from your subject. Examples [Video](#)
2. Take several photos that demonstrate the theory of Leading Lines in composition.
3. Create a blog post for this assignment:
  - Title the post: Leading Lines
  - Upload at least 2 images that demonstrate use of this technique
  - Write a paragraph explaining how you used leading lines in each image, and your thoughts on how the images came out.
