

Technology News Article

Locate an article about some type of green technology that you find interesting. Think of “green technology” as products that help reduce waste and pollution, conserve the natural environment, and make use of natural resources.

Be sure it is a short article that you can understand and explain to someone else.

In your Google Drive folder you will

1. Create a document and name it news article
2. Write one paragraph that tells us what the article said - put this into your own words - this part should be at least 4 sentences long
3. Write a second paragraph that tells us your opinion. Let us know the good and the bad about this technology, and what you think of it. This paragraph should also be at least 4 sentences long.
4. Use the EasyBib add-on to create a complete MLA citation
