

Photowork Assignment: Point of View

Point of View (POV) - the position from which something is observed

1. Find a subject that catches your eye and take several photos of it from different angles. For example: take a picture from the front and then walk around to the back, try a close-up and side views, look down from above or even up from laying on the ground. There are many ways to take pictures of the same subject. The goal is to show the same object in a creative and interesting ways.
 2. Create a blog post for this assignment:
 - Title the post: Point of View
 - Write a paragraph explaining why you chose the item to photograph and your thoughts about the images you chose to keep
 - Include at least 3 of your images
-
