

Now it's time to choose your own adventure! Your mission is, quite simply, to have fun with Scratch and implement a project of your choice (be it an animation, a game, interactive art, or anything else), subject only to the following requirements.

- Your project must have at least three sprites, at least one of which must resemble something other than a cat.
- Your project must use at least one condition, one loop, and one variable.
- Your project must use at least one sound.
